Intrusion

Fire

Flood

CO

Intrusion and break-in is the first priority for your home security. Our security alarm systems adopts the latest intrusion motion sensor, perimeter sensors, as well as security cameras, to keep bad guys out.

Avoid the nightmare of fire disaster, pre-alarm before spread of fire through your home is another crucial functions of our security alarm systems. Protect your home away from fire disaster.

Want to get informed and pre-alarmed, when the water leak into your basement or house ? Water leak sensor send alarm message, when contact the water.

Today's security no longer only provides intrusion & fire protection. Work with CO detectors, the alarm system can protect your family away from toxic gas.
